PROFESSIONAL SUMMARY

Recent Computer Programming graduate (Apr 2026) with hands-on experience supporting users, troubleshooting systems, and working with business tools including Microsoft 365, SQL, and Excel. Strong problem-solver with a customer-focused mindset, experienced in translating technical issues into practical solutions and improving system efficiency.

TECHNICAL SKILLS

Business & IT Tools: Microsoft 365 (Teams, SharePoint), Excel, Power BI, Tableau

Databases & Data: SQL, PostgreSQL, MySQL, MongoDB

Systems & Tools: Git, Linux, Postman, Docker, CI/CD

Programming: JavaScript, TypeScript, Python, Java, C#, Swift, Kotlin

Frameworks: React, Node.js, React Native, Angular, Vue.js

PROJECTS

GlamUp! Online Beauty Services | React Native, TypeScript, Node.js, REST APIs, Figma, Expo

- Designed and implemented reusable React Native screens in TypeScript, improving consistency across mobile workflows
- Integrated mobile frontend with Node.js backend endpoints and REST APIs for booking and profile management features
- Significantly improved UI consistency and usability across key mobile screens, reducing user friction and creating a smoother end-to-end booking experience.
- Worked with backend systems and APIs to ensure data flow, system reliability, and integration between services

Smart Inventory System | ASP.NET Core MVC, C#, Entity Framework Core, PostgreSQL, Spring Boot, Azure

- Delivered a system-focused inventory application with role-based access control, data management, and structured workflows
- Implemented secure software development practices, including application security testing and source-level vulnerability remediation to improve release safety.
- Designed CI/CD-aligned delivery using Maven and Nexus, and deployed services to cloud infrastructure with Nginx for routing and Redis for performance optimization.
- Deployed to Azure and improved production readiness with global error handling, custom 404/500 pages, and Serilog logging.

EXPERIENCE

Student Ambassador | George Brown Polytechnic, Toronto, Canada | May 2025 – May 2026

- Provided technical support for campus systems, online platforms, and software tools, ensuring timely resolution of user issues
- Acted as the first point of contact for IT-related inquiries, troubleshooting access, usability, and system navigation problems
- Documented recurring issues and patterns to support process improvements and faster resolution workflows
- Collaborated with internal teams to ensure accurate escalation and resolution of technical and administrative issues

Sales Associate | TJX Canada, Toronto, Canada | Sep 2024 - Present

- Handled customer issues using structured troubleshooting approaches, ensuring efficient resolution and positive user experience
- Trained new associates on POS systems and workflows, improving onboarding quality and operational consistency
- Consistently recognized for teamwork, adaptability, and dependable execution under tight timelines

Architect | Mimari Arastirmalar Ltd., Istanbul, Turkey | Feb 2019 - Mar 2020

- Produced client-ready design solutions with strong visual hierarchy, layout logic, and documentation quality
- Coordinated with cross-functional stakeholders, vendors, and contractors to deliver projects on time and within budget
- Maintained revision records and implementation details to support quality and accountability

EDUCATION**George Brown Polytechnic | Toronto, Canada | Sep 2023 - Apr 2026**

Computer Programming and Analysis, Advanced Diploma

- Machine Learning & Data Analysis with Python
- Object-Oriented Programming (Java, C#)
- Full Stack Web Development (React, Node.js)
- Software Development Lifecycle and Agile Methodologies
- Database Design and SQL

Yildiz Technical University | Istanbul, Turkey | Sep 2012 - Jun 2017

Architecture, Bachelor's Degree

- Developed strong visual design foundations in layout, hierarchy, typography, color theory, and user-centered presentation.
- Produced concept-to-delivery design work through research, ideation, iterative prototyping, and critique-based refinement.
- Collaborated on studio projects with multiple stakeholders, balancing usability, aesthetics, technical constraints, and deadlines.
